

EXAMPLE PROJECTS

Customer Program

Objective

Dintersa

Project Management Teens Pilot Course* (2014)

Formulate, pilot, and distribute courses for teenagers that enables them to develop early competencies in project management to face current and future environment. This program is being supported by GPM (Germany, www.gpm-ipma.de), PMA (Austria, www.p-m-a.at), APMgT (Guatemala, www.apmgt.org), local volunteers, and collaboration with Princess Laurentien of the Netherlands.

Customer Program

Objective

Cayala Group (Grupo Cayalá)

Integrating security in Cayalá city (2013/14)

Make of Ciudad Cayalá the main citadel in the world regarding complete, integrated, effective security (anti-criminal), that's also transparent to its denizens. This program comprised other projects and programs such as smart-video systems, telecommunications, automation, data-center, monitoring-center, private police task force, medical reaction team, traffic control, energy backup, city neighborhood design, and compliance with laws and regulations.

Customer Program

Objective

Project Management Assoc. Guatemala

International accreditation of the Association (2012/14)

Organization validation and accreditation against international norms (ISO 9000, ISO 17024, ICB 3.0, NCRG 3.1). This included coordinating foreign validation assessors to audit processes and documentation. And projects to comply and correct all recommendations according to their class. Present the association to the Council of Delegates for final evaluation and acceptance.

Customer Portfolio

Objective

Greater Williamsburg Chamber & Tourism Alliance

Historic Triangle regional economic development (2011/13)

Increase economic sustainability in the region of Williamsburg, York Town, and James City. This portfolio required the initiation and monitoring of programs for land development (commercial, industrial, and residential). A program to upgrade the regional telecommunications infrastructure to support new businesses. Also a program to create a sustainable business incubator and another to foster the region visibility to attract businesses and qualified professionals. All of this as a joint venture between the private industry and three local governments.
